

**Sustainability Workshop, 30 March 2022
National Composites Centre
Bristol & Bath Science Park, Emersons Green
Bristol BS16 7FS**

Agenda

- 09:30 Welcome and Introduction to Event - NCC Director
09:45 A Snapshot of Composites Manufacturing Sustainability Research - Nick Warrior

NCC presentations

- 10:05 Sustainability Vision and Journey - Tim Young
10:25 Net Zero: what are we doing at the NCC and how are we supporting SMEs - Kyle Pender
10:45 SusWIND - Peter Giddings
11:05 Composites @ End-of-life - Vicky Summers

11:25 Coffee break

- 11:40 Manufacturing waste - Patrick Sullivan
12:00 Bio-Bolster case study - Annabel Fitzgerald
12:20 Life cycle Engineering and its application to composite structural design - Will Proud
12:40 Hydrogen and the 2025 target - Marcus Walls-Bruck

13:00 Lunch break

CIMCOMP Workshops

- 14:00 Research challenges in composites recycling methodologies
14:20 Research challenges in composites life cycle assessment processes
14:40 Research challenges in sustainability in composites manufacturing processes
15:00 Research challenges in composites manufacturing with recovered fibres

CLF workshop

- 15:20 Business case and CLF/industrial support to funding opportunities

15:40 Coffee break

- 15:55 Wrap-up: Overview of workshop findings + next steps - James Whyman
